## SKIRTING INSTRUCTIONS

For best results, place the top cloth onto the table and then distribute the Velcro skirt clips evenly along the edge of the table, about 1 foot apart. Fold the skirt in half to find the middle, and then start at that point by attaching it to a clip near the middle of the table. Attach one side of the skirt and then the other so the ends are more or less even. We provide one Velcro clip per foot of skirting.

Please return skirting in laundry bag provided and return Velcro clips in plastic bag provided.

Additional charges and/or full replacement costs will be invoiced for the following:

- Loss or damage to skirting due to burns, holes, tears, staples and permanent stains such as: ink, wax, mildew and grease.
- Missing skirting clips (\$1.50 each).
